## Louisiana Arts Education School Survey

The survey was available online at Survey Monkey from May 28, 2009 to August 14, 2009. Participation was encouraged but not mandated by any federal or state governed agency and all respondents were solicited online. The survey was sent to district-level superintendents and art specialist coordinators, who were asked to distribute the information and a link to the survey to principals and assistant principals in their district.

A total of 154 respondents completed the survey. Respondents were asked to complete demographic information to facilitate an understanding of the participants in this survey. No individuals or organizations are identified by name in final reports or any publicly published outcomes and no names were shared with other organizations. The survey was commissioned by the Louisiana Department of Culture, Recreation and Tourism, Office of Cultural Development and conducted by KID smART, a nonprofit arts education organization based in New Orleans.
